Md Majid Khan

Voice Platform & Applications and Segment Engineer @ Twilio
mdmajidkhan100@gmail.com · linkedin.com/in/majid-khan-477b84176

PROFILE

Engineer working across Voice Platform & Applications, Twilio Segment, CPaaS, Telecom and APIs. Progression from enterprise operations at Amazon, through CPaaS and telecom support at Route Mobile and system engineering at Onextel (NIC/NICSI messaging engagement), to Voice and Segment engineering at Twilio.

EXPERIENCE

Voice Platform & Applications and Segment Engineer — Twilio

20 Jul 2026 – Present

- Voice Platform & Applications and Twilio Segment: SIP, SIP Trunking, WebRTC, VoIP, REST APIs, JavaScript, Node.js, JSON, SQL, SDKs, Mobile SDKs, HTTP/HTTPS, TCP/IP, TCP/UDP, SSL/TLS.
- Troubleshooting across SIP signaling, call setup, call routing, connectivity, authentication, media establishment and application configuration.
- API troubleshooting: requests/responses, HTTP status codes, JSON payloads, SDK integrations and WebRTC connectivity.
- Segment Sources, Destinations, event collection and customer data flows, including SQL-based investigation.
- Customer integrations, technical escalations, production troubleshooting and root cause analysis.

Senior Technical Support Engineer, System Engineering — Onextel Limited

Mar 2026 – 08 Jul 2026 · Noida, India

- SMS, SMPP, REST APIs, Linux, NGINX, Kafka, TCP/IP, SSL/TLS, telecom routing and DLRs.
- API debugging, traffic monitoring, incident response, RCA and operator coordination.
- **NIC/NICSI engagement (delivered through Onextel):** end-to-end SMS traffic monitoring; REST API and SMPP troubleshooting; SMPP log and DLR analysis; message latency and routing failure investigation; NGINX API gateway monitoring and access/error log analysis; SSL/TLS, API timeout and TCP connectivity troubleshooting; Kafka messaging flow investigation; Linux troubleshooting; telecom operator coordination; production incident management, RCA and technical escalation handling.

Engineer — Technical Support — Route Mobile

Nov 2024 – Feb 2026 · Mumbai, India

- SMS, SMPP, HTTP and REST APIs, CPaaS, WhatsApp Business API, DLRs, operator networks and messaging routing.
- Protocol debugging, log analysis, throughput, latency, gateway monitoring, customer integrations, production incidents and SLA management.

SDS Associate — Payment & Tax Executive — Amazon Development Centre

May 2024 – Oct 2024

- Payment/tax support, payment discrepancy investigation, escalation management, SLA management and stakeholder coordination.

CAP Associate — Concession Abuse Prevention — Amazon Development Centre

May 2023 – Jan 2024

- Operational investigations, policy-related cases, revenue leakage prevention, customer-impacting issue resolution and SLA management.

SKILLS

Voice & RTC: SIP, SIP Trunking, WebRTC, VoIP, Voice APIs, Call Flow Troubleshooting
APIs & Development: REST APIs, HTTP/HTTPS, JavaScript, Node.js, JSON, SDKs, Mobile SDKs, Postman
Data: SQL, Segment, Sources, Destinations, Event Flows, Customer Data Integrations
Messaging & CPaaS: SMPP, SMS, SMS Routing, DLR, WhatsApp Business API, Enterprise Messaging
Networking & Infra: TCP/IP, TCP/UDP, SSL/TLS, HTTP/HTTPS, Linux, NGINX, Kafka
Operations: Production Support, Incident Management, RCA, Log Analysis, API Debugging, Network Troubleshooting, Traffic Monitoring, Technical Escalations, SLA Management

EDUCATION

B.Tech, Computer Science and Engineering — Dr. Babasaheb Ambedkar Technological University · 2020 – 2024 · CGPA 8.09 / 10.0

ACHIEVEMENTS

- 1st Runner Up — National Level Technical Poster Competition
- Team Leader — Smart India Hackathon 2022
- Organizer — Quizzython, Technical Quiz Event
- College Representative — Abhyuday, IIT Bombay 2023
